[217.714.6094](tel:217.714.6094) | [collin@collinbullock.com](mailto:collin@collinbullock.com) | <https://www.linkedin.com/in/collin-bullock> | <https://github.com/CollinABullock>

**Certified Workday Consultant and graduate of the University of Illinois Chicago Full Stack Web Development program, with a strong foundation in modern software engineering and enterprise systems. Combines deep technical skills with 10+ years of experience in customer service and management, enabling clear and effective communication between engineers, clients, and stakeholders.**

## SKILLS

*Workday HCM, Workday Integrations, Workday E2E (end-to-end) testing, Workday Extend, Workday Orchestrations, HTML, CSS, JavaScript, React.js, Angular, Responsive Web Design, UI/UX Design, Frontend Security Best Practices, Debugging and Browser Developer Tools, SASS, LESS, Git, Webpack, Cross-Browser Compatibility, JIRA, CI/CD Pipelines, Linux, Systems Reliability, Automation, Scalable Systems, Service Architecture, Performance Optimization, Technical Troubleshooting, Documentation, Team Collaboration, Communication Skills*

## EXPERIENCE

**Certified Workday Extend Consultant | Intecrowd | Remote | 2024 - 2025**

- Built and deployed multiple Workday Extend applications (time tracking, requisitions, invoicing) using Workday Orchestrations, REST/SOAP APIs, and AWS services.
- Collaborated on complex integrations between Workday HCM and external systems for Fortune 500 clients.
- Specialized in API-based data exchange, authentication workflows, and scalable orchestration pipelines.

**Certified Workday Integrations Consultant | TopBloc | Chicago, IL | 2024**

- Earned certifications in Workday HCM, Integrations, and E2E testing; quickly onboarded into client-facing roles.
- Led and supported end-to-end HCM implementations for enterprise clients, translating business needs into scalable Workday integrations.
- Acted as primary liaison between technical teams and stakeholders, using strong communication skills to demystify complex processes.

**General Manager | School of Rock | Elmhurst, IL | 2014 - 2024**

- Led a \$700k+ per year business with hundreds of regular students and dozens of employees.
- Increased customer retention by over 25%.
- Increased revenue by over 50%.
- Troubleshooting various network connectivity and tech problems.
- Spearheaded SEO and social media outreach.

## PROJECTS

- **Collin & Tony's House of Sushi & Pizza** | <https://cthsp.netlify.app/>  
Designed and developed a full-stack concept site using React, React Bootstrap, and Framer Motion for a responsive restaurant UX. Implemented JSON-based backend with Fetch API; integrated Node.js for interactivity.
- **Choose A Movie Already!** | <https://chooseamoviealready.netlify.app/>  
Created a dynamic React app that filters streaming service movies by actor, genre, decade, and runtime. Developed custom filtering logic in JavaScript and styled with Bootstrap.
